**Website,** Debra

"The Website at <https://www.nworegonna.org/> is updated to reflect the removal of the Seaside Sunday night NA meeting. The updated schedule that Buzz sent is also available, now, on the website. No problems with the website.

I attended part of the World NA Zoom meeting New Meeting Finder Informational Meeting. Here's the blurb from that meeting: *World Services is changing our meeting finder app and website. Instead of trying to maintain accurate information for the more than 72,000 meetings in over 140 countries around the world, our website and meeting finder app will refer people to local websites and phonenumber for meeting information. Local meeting information is typically more accurate and up to date.*

*In order for the new system to work, however, we need to know the town or the city at the geographical center of all local websites and phonenumber (area, regional, etc.).*

I gave the pertinent information to Lori at World, and she states that we are updated and good to go."

Trevor will use a code he has to get the Sunday meeting removed from na.org.
